Internal Hackathon**

Report on Institute-Level Internal Hackathon for (SIH 2024) Selection

**PRASAD V. POTLURI SIDDHARTHA
INSTITUTE OF TECHNOLOGY
KANURU, VIJAYAWADA**

**Conducting Internal Hackathon For SIH 2024
5th & 6th September 2024.**

1PM - 5PM

MODE: Online

Themes:

- Fitness & Sports
- Space Technology
- Heritage & Culture
- Smart Vehicles
- Robotics & Drones
- Tourism
- Blockchain Technology
- Clean & Green Technology
- MedTech/BioTech/HealthTech
- Miscellaneous
- Renewable/Sustainable Energy
- Transportation & Logistics
- Disaster Management
- Smart Education
- Toys & Games
- Smart Resource Conservation
- Smart Automation
- Agriculture, FoodTech & rural Development

ALL THE IDEAS CAN BE PRESENTED IN THE FORM OF A PPT

**Dr.A.Haritha
COORDINATOR IIC**

**Dr.Jagadish Vengala
CONVENER IIC**

**Dr.K.Sivaji Babu
PRESIDENT IIC**

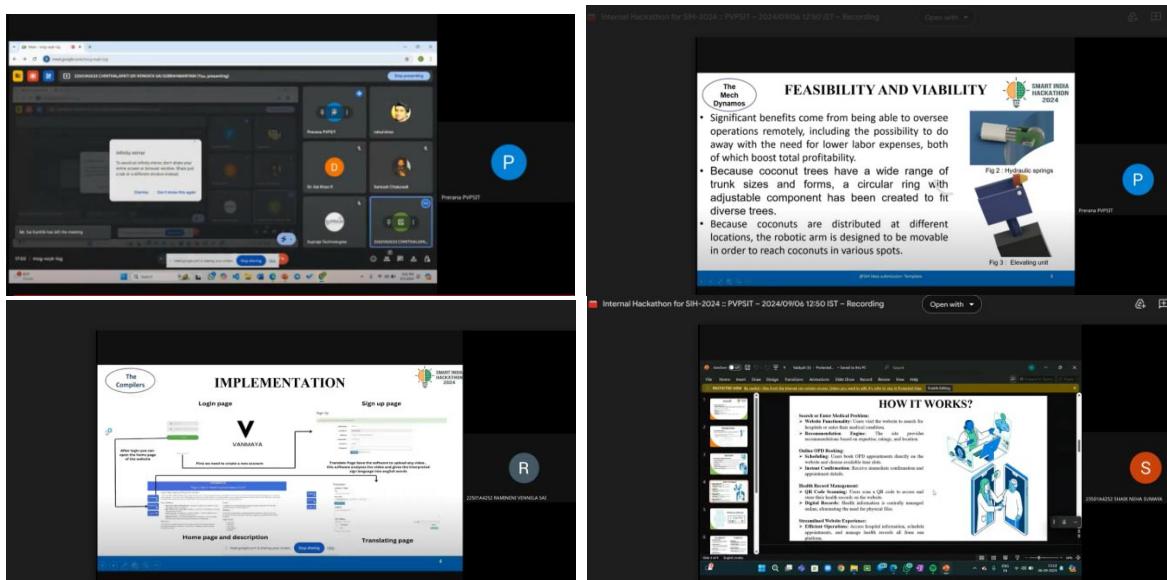

About the Event:

The Institute Innovation Council (IIC) of Prasad V Potluri Siddhartha Institute of Technology organized an INTERNAL HACKATHON on 5th and 6th of September, 2024 as per the guidelines of SMART INDIA HACKATHON 2024. The event was coordinated by Dr. V.Jagadish, Convener IIC and Dr. A.Haritha, Coordinator IIC and SPOC for SIH 2024. The event was also graced by the presence of Dr K Sivaji Babu, President IIC PVPSIT.

The event was hosted in online mode . This event held immense significance as a precursor to the Smart India Hackathon 2024 (SIH 2024). The primary objective of this hackathon was to identify and select the most promising teams that would represent our institution in the prestigious SIH 2024 finals. Students

identified various problem statements in both Software and Hardware categories given in the SIH problem statements portal and came up with innovative and feasible solutions to the adopted problem statements. This event was more than just a competition; it was a platform for fostering innovation, encouraging collaboration, and nurturing problem-solving skills among our talented student community.

A total of 64 teams participated with 384 students from the departments of Computer Science, Information Technology, Electronics and Communication Engineering, Electrical and Electronics Engineering , Data Science, AI &ML and Mechanical Engineering participated in the event. 156 from Female category and 228 from male category took part in this event.

About the Problem Statement

A cornerstone of this Hackathon was the careful selection of problem statements. These problem statements encompassed a wide spectrum of domains, ranging from technology and healthcare to social and environmental challenges. By doing so, the event aimed to challenge participating teams and inspire them to craft innovative, practical solutions to real-world problems. This diversity of problem statements showcased the versatility of our participants and their ability to tackle multifaceted issues.

Problem Statements

Some of the problem statements chosen by our students are

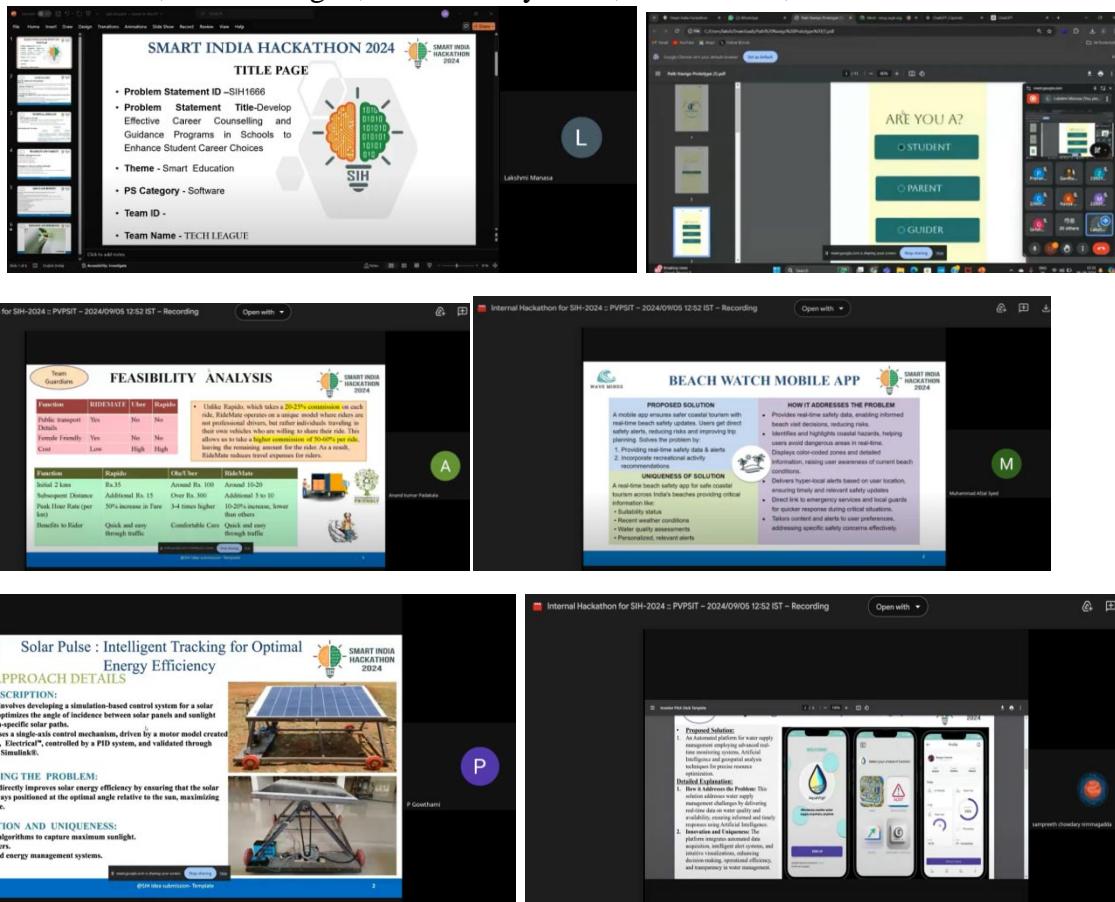

- Create a Virtual Herbal Garden that provides an interactive, educational and immersive experience to users, showcasing the diverse range of medicinal plants used in AYUSH.
- Develop a Smart Yoga Mat integrated with Artificial Intelligence (AI) capabilities to support smart watch integration for tracking progress.
- AI based acoustic wave monitoring of rail defects like crack, fracture and prediction for rail wear, quality.

- Addressing the growing pressures on city's resources, transportation network and logistic infrastructure.
- Mobile App for direct access for farmers
- Mobile App for recreational sustainability information on beach locations.
- Constitution in simple manner
- Learning App for deaf and sign language detection

Participating Teams

This hackathon was made richer by the presence of diverse and enthusiastic teams with creative names that reflected their spirit of innovation:

- Echosentinal, Team Guardians, Problem Seekers, Lingualinkers, Kingsman, Smashers, Vegitos, codeastra, TECH TITANS, Freggie, The Incredibles
- Data Drafters, Edu – Changers, The Mech-Dynamics, InnoMachina, Sustainable Skies

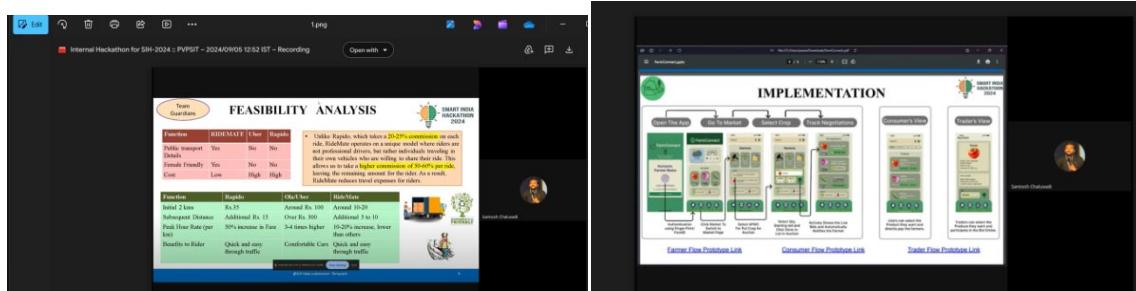

Judging Process

The judging process was designed to be robust and comprehensive, ensuring a fair assessment of all projects. Our esteemed jury panel, comprising experts from relevant domains, evaluated the solutions based on the following criteria:

Appropriateness to the problem statement
 Innovativeness of the approach
 Feasibility and practicality of the solution
 Quality and efficiency of the implemented solution

Jury Panel

Our jury panel are individuals with a wealth of expertise and experience in their respective fields. Their insights and guidance added significant value to the evaluation process, and we are grateful for their participation.

Nominated Top Teams

After careful evaluation, we are pleased to announce the top-performing teams that will represent our institute in the SIH 2024 finals. These teams have demonstrated exceptional problem-solving abilities and innovation in their solutions. The Nominated Teams are
